Discovery School Tours

Calling all Students.....

Think about what kind of career you'd like to have!

- The Discovery School Tours showcase a variety of workplace technologies and feature high demand career occupations.
- The hands-on interactive tour simulates a manufacturing cycle from design through build and final assembly of a miniature working hovercraft.
- Opportunity for students to talk to industry professionals and find out what it takes to join an innovative team in Manitoba.
- Careers in the manufacturing sector are fun, exciting, encourage creativity and offer some of the highest wages and benefits in Manitoba.
- Invent your future by exploring the exciting world of modern manufacturing!

Details:

- Tours take place at the Winnipeg Convention Centre during the 2010 Canadian Manufacturers and Exporters Manufacturing Week conference, on March 23rd, 2010
- Participants may watch other schools compete in the Discovery Program Finals.
- Students on tour will assemble a working Hovercraft to take home.
- Tours take approximately 60 minutes to complete.
- Schools must register no later than November 1st, 2009 and may bring up to 30 students to participate in the program.
- There is no cost for schools registering; however schools wishing to cancel their reservation must do so in writing no later than February 5th, 2010 or a \$75.00 materials fee will be applied.
- **Space is limited, register early!**
